

The Velocity of Inversion of Sucrose as a Function of the Thermodynamic Concentration of Hydrogen Ion: Dissertation Submitted in Partial Fulfillment of the Requirements for the Degree of Doctor of Philosophy in the

Filesize: 9.52 MB

Reviews

This ebook could be well worth a study, and superior to other. It really is basic but unexpected situations inside the 50 % of your ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.
(Prof. Buford Ziemann)

THE VELOCITY OF INVERSION OF SUCROSE AS A FUNCTION OF THE THERMODYNAMIC CONCENTRATION OF HYDROGEN ION: DISSERTATION SUBMITTED IN PARTIAL FULFILLMENT OF THE REQUIREMENTS FOR THE DEGREE OF DOCTOR OF PHILOSOPHY IN THE

Forgotten Books, 2018. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Velocity of Inversion of Sucrose as a Function of the Thermodynamic Concentration of Hydrogen Ion: Dissertation Submitted in Partial Fulfillment of the Requirements for the Degree of Doctor of Philosophy in the Faculty of Pure Science, Columbia, University in the City of New York In general the velocity of inversion of sucrose is a function of several variables, namely the temperature, and concentration of hydrogen ion, undissociated acid, sucrose, added salts and non -electrolytes. Although the study of this reaction has been very extensive,¹ it must be pointed out that on account of the many variables to be considered, and the wide intervals over which each variable may be varied, the experimental data in the literature is really of such a fragmentary nature as to make it impossible to study the reaction in a critical and thorough manner. It is the particular purpose of this investigation to study the inversion velocity as a function of the thermodynamic concentration of hydrogen ion² in connection with the broader purpose of testing the various theories that have been advanced, and to adduce evidence which will allow a study of the problem from the viewpoint of thermodynamic as well as kinetic theory. It may not be out of place here to mention a few prominent theories regarding the relation of the hydrogen ion concentration to the velocity of inversion of sucrose. Ostwald³ was the first to use the inversion of cane sugar as a means of measuring the concentration of hydrogen ion, basing his theory upon the assumption that the velocity of inversion would be directly proportional to the concentration of the latter. He found, however, that the velocity coefficients did not...
