## Agriculture and the Environment: Searching for Greener Pastures

By Terry L. Anderson, Bruce Yandle

Hoover Institution Press, U.S. Paperback. Book Condition: new. BRAND NEW, Agriculture and the Environment: Searching for Greener Pastures, Terry L. Anderson, Bruce Yandle, U.S. agriculture is the envy of the world. Although output from U.S. farms is high, there is a growing gap between what is being produced and what could be produced, partly because innovation and production are constrained by a growing maze of environmental regulations. The chapters, authored by leading experts in their fields, focus on the major environmental constraints that limit U.S. food production without necessarily improving environmental quality. Each paper documents a specific issue, discusses the regulatory response, and offers ideas for reform. U.S. farmland Are we really running out of prime farmland? Or is this another example of Chicken Little? Sensitive habitat How can environmentally sensitive land be preserved? Does it make sense to set aside habitat forever? How can the market process be strengthened? Urban sprawl and agricultural land Can controls on agricultural land use prevent urban sprawl? Are there market alternatives to command and control? Chemicals and agriculture The use of agricultural chemicals accounts for much of the high growth of output from U.S. farms. Are chemicals that contribute to agricultural productivity harmful to...
