## The Ends of Philosophy of Religion Terminus and Telos

By Timothy David Knepper

Palgrave Macmillan. Hardcover. Book Condition: New. Hardcover. 222 pages. Dimensions: 8.4in. x 5.6in. x 0.8in. In *The Ends of Philosophy of Religion*, Timothy D. Knepper advances a new, historically grounded and religiously diverse program for the philosophy of religion. Knepper first critiques existing efforts in analytic and continental philosophy of religion for neglect of diversity among its objects and subjects of inquiry, as well as for failing to thickly describe, formally compare, and critically evaluate historical acts of reason-giving in the religions of the world. Knepper then constructs an alternative vision for the philosophy of religion, one in which religious reason-giving is described with empathetic yet suspicious sensitivity, compared with methodological and categorical awareness, and explained and evaluated with a plurality of resources and criteria. *The Ends of Philosophy of Religion* casts a critical eye over both analytic and continental philosophy of religion and finds an ailment that besets them both. Knepper provides an analysis that is not only clear and eloquent but also sometimes frustrated and angry one. This gives his book the feeling of a manifesto, something I judge that the discipline needs. - Kevin Schilbrack, Professor, Philosophy and Religion Department, Western Carolina University, USA
