COUNTING THE CARBONS

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Assessing Qatar's CO2 Emissions Calculations | Climate change is the most pressing global environmental issue today, with a potentially devastating impact on human development. The Intergovernmental Panel on Climate Change (IPCC) has established consensus that climate change is clearly linked to human activity. Qatar is addressing the climate change phenomena through the environmental pillar of Qatar National Vision 2030. However, Qatar's carbon footprint takes into account Qatar's energy production rather than the...
