Excerpt: .not only education and experience, buti something of the pioneer s patience and willingness to experiment. These new professions are an outgrowth of the effort that has been going on in recent years to apply both science and modern social conceptions to industrial organization. In undertaking what is generally spoken of as welfare work--experiments on the part of employers to meet the well-founded criticisms of conditions under which large bodies of men and women were working--it was naturally recognized that a woman was needed for leadership where it was a question of woman labor. At the start, welfare work was each man s notion of what might or should be done to better things. Nobody knew quite what could be done or how it could be done. A woman introduced into a factory as a welfare worker had received no systematic training such as...
