## EXPERIENCE PSYCHOLOGY

McGraw-Hill Education - Europe, United States, 2013. Paperback. Book Condition: New. 2nd Revised edition. 274 x 226 mm. Language: English . Brand New Book. Do you want your students to just take psychology or to experience psychology? Experience Psychology is a complete learning system that empowers students to personally, critically, and actively experience the impact of psychology in everyday life. Experience Psychology is about, well, experience-our own behaviors; our relationships at home and in our communities, in school and at work; and our interactions in different learning environments. Grounded in meaningful real-world contexts, Experience Psychology s contemporary examples, personalized author notes, and applied exercises speak directly to students, allowing them to engage with psychology and to learn verbally, visually, and experientially-by reading, seeing, and doing. With the Experience Psychology learning system, students do not just take psychology but actively experience it. Experience a Personalized Approach - How many students think they know everything about introductory psychology but struggle on the first exam? LearnSmart, McGraw-Hill s adaptive learning system, pinpoints students metacognitive abilities and limitations, identifying what they know-and more importantly, what they don t know. Using Bloom s Taxonomy and a highly sophisticated smart algorithm, LearnSmart creates a personalized, customized study plan that s unique to each individual student s demonstrated needs. With virtually no administrative overhead, instructors using LearnSmart are reporting an increase in student performance by a letter-grade or more. Throughout Experience Psychology, students find a wealth of personal pedagogical asides directly from Laura King to guide their understanding and stimulate their interest as they read. Some of these helpful notes highlight crucial terms and concepts; others prompt students to think critically about the complexities of the issues; other notes encourage students to apply what they have learned to their prior reading or to a new situation. These...
